

PCI and PMCA of Texas present—

Designing with Architectural Precast Concrete SEMINAR

Discover why architectural precast concrete is rapidly becoming a preferred aesthetic and sustainable choice of designers, owners, and builders/developers nationwide.

Don't miss this important seminar that highlights key design concepts from the new *Architectural Precast Concrete* design manual, 3rd edition.

Dates and Locations

February 23, 2010
San Antonio, TX

February 24, 2010
Fort Worth, TX

February 25, 2010
Houston-Westchase, TX

Seminar Overview

In conjunction with the recent publication of the 3rd edition of PCI's *Architectural Precast Concrete* manual, the producer members of PCI and Precast Concrete Manufacturers' Association of Texas present a Designing with Architectural Precast Concrete seminar.

This full-day seminar is for architects interested in architectural precast concrete design — including aesthetics, detailing, design economy, loads, sustainability considerations, and other architectural precast issues. Integrated architectural and structural solutions, including total precast, parking structures, schools, health care facilities and military applications are also discussed.

Five Learning Tracks Offered:

- Architectural Precast Concrete Applications Overview
- Aesthetic Possibilities and Design Economy
- Design Concepts
- Design Considerations and Detailing
- Sustainability

Continuing Education Credits

 Attendees will earn 6.75 AIA/CES (HSW) Learning Units (LU) or 6.75 Professional Development Hours (PDH). A certificate of completion will be provided at the conclusion of the seminar.

Registration Fee

FREE with Precaster Sponsorship. Simply contact a precaster on the attached/enclosed list of participating precasters and tell them you want a ticket to the Designing with Architectural Precast Seminar.

\$79 if you prefer to pay. Make Checks payable to PCMA of Texas, P.O. Box 310358, New Braunfels, TX 78131.

Registration also includes continental breakfast, lunch, and breaks.

Go to www.pci.org/education/seminars and click on "Designing with Architectural Precast Concrete"

A credit card is required for online registration.
